AIMS AND SCOPE

Applied Geography is a journal devoted to the publication of research which utilizes geographic approaches (human, physical, nature-society and GIScience) to resolve human problems that have a spatial dimension. These problems may be related to the assessment, management and allocation of the world’s physical and/or human resources. The underlying rationale of the journal is that only through a clear understanding of the relevant societal, physical, and coupled natural-humans systems can we resolve such problems.

Papers are invited on any theme involving the application of geographical theory and methodology in the resolution of human problems. This may include papers on the techniques, problems and results of environmental and/or social research, as well as those concerned with the principles, policies and consequences of resource management and allocation. Articles are refereed before publication.

Contributions Articles, commentaries or reviews for publication should be submitted via the online submission page of this journal at http://www.ees.elsevier.com/japg

ScienceDirect

Elsevier’s Science & Technology content is available online via ScienceDirect—providing easy, instant, DRM-free access to searchable books, journals and citation tools all in one place. Learn more at http://info.ScienceDirect.com/books

Books Content on ScienceDirect

Offering comprehensive coverage of the full range of scientific disciplines, including those published under the renowned Woodhead Publishing and Gulf Professional Publishing imprints, over 17,000 eBooks, 59,000 Major Reference Works chapters, and 200,500 Book & Handbook Series chapters are now fully integrated with journals on ScienceDirect.

We’ll provide the resources to help you maximize awareness and usage of the titles in your collection:

• tutorials and guides
• local “lunch and learn” training sessions
• customized marketing toolkits
• webinars
• free MARC records

Contact us to find out how we can help you make the most out of your ScienceDirect Books investment.

Purchasing Models

There are many flexible purchase options available for the ScienceDirect books collection, which includes eBooks, Book Series, Handbooks, Major Reference Works, and Reference Modules.
